

MURDEROUS
DYNAMITE
BOMBFound in the Vicinity of the
Rio Grande Western
Depot.

LOADED WITH EXPLOSIVES

Sufficient to Devastate an Area
of Half an Acre.

Ten Sticks of Dynamite, a Pound of Gunpowder, Twenty-five Percussion Caps, Pailor Matches and Sand-paper Encased in a Lead Pipe, All Ready to Be Exploded—James Fitzner Charged With the Awful Crime—Claimed That He Wanted to Take Revenge on His Sister-in-Law and at the Same Time Kill Hundreds of Others—Police Officer Shannon the Only Man Brave Enough to Handle the Infernal Thing—Other Escapades of the Man Fitzner.

Because providential prompting restrained little Gussie Johnson from touching or playing with a monstrous leaden shell found beneath the bed-

ing the wolves and coyotes were sent from Utah, to which I pleaded not guilty. I am in jail—all bond refused. I am also accused of being a dynamiter. A bomb was found in J. Pine's yard, No. 2 Depot avenue, so I was told by the detectives. Me and Pine have been at odds for some time; him and his wife have made open threats to 'job' me into the penitentiary, and if one thing didn't work another would. They also tried to get my wife to poison me when I boarded at their house.

"J. FITZNER."

DISPLAYED CURIOSITY.

To Officer Shannon, who visited him in prison, Fitzner displayed much curiosity about the bomb. He wanted to know its size, how it was loaded and whether it had been examined closely.

Every question put to draw him out failed. He expressed the belief that it was a scheme of the Pine family to get him out of their way.

Five minutes after the child had told her mother of the discovery under Mrs. Pine's window the Pine family and many neighboring families stood about the bomb and shivered to realize how near they had come to death. Mrs. Johnson caught her baby to her arms and wept in a tremor of fright. Officer Shannon happened to be in the vicinity and was called to remove the dangerous shell. Although he has never shown the white feather, all resolution seemed to have left him. He could not muster enough courage to touch it, and no one else could be found who was willing to risk his life in the venture.

For five hours the bomb lay in the Pine back yard surrounded by a gawking crowd that was kept at a safe distance by Mr. Pine, while Shannon hunted the city over to get a volunteer.

He visited the Evans, Scott and Browning hardware establishments, but none of the employees would have anything to do with the infernal machine. They all had families and were careful of their own lives.

MR. BROWNING'S OFFER.

Mr. Browning, who is familiar with nearly all of the high explosives, finally offered to remove the thing for \$50, but would not go down to the depot to examine. Defeated in all of his attempts, Shannon was brought face to face with the necessity of getting the bomb out of the way before it was accidentally discharged. He returned to the scene of the excitement at Depot avenue and after ordering the crowd to the street, made a careful examination of the object of terror. It lay

on the ground, not eight inches from the wall of the Pine house in an angle formed by a projecting woodshed or kitchen and directly under the window of Mrs. Pine's chamber. A mark in the fresh earth showed that the shell had been moved, probably by the child who first discovered it. Marveling at the miracle which prevented its explosion, the officer bent his eyes, gripped his teeth and then reached forth his hands to take the thing. As his fingers came in contact with the cold leaden casing his heart almost stopped its beat. For an instant his fingers shook with agony and he half arose to regain composure; then he went again to the unwilling task.

SHANNON CARRIED IT TO THE STATION.

Steeling himself to the moment, he

fastened upon it and slowly lifted it from the ground. Holding it away from his person, the nervy officer carried it in this position all the way to the police headquarters, followed at a safe distance by a respectful crowd. Once at the police station, Mr. Browning was pressed into service, but not until the fire and police commission had worried itself sick to know who would pay the expenses of the unloading. Browning was authorized to go ahead, however, and he did so in a

CHICAGO'S TOTAL
VOTE FOR MAYOR

Carter Harrison Given a Plurality of 79,040.

HIS MAJORITY WAS 4,864

REPUBLICANS FAIL TO CARRY A SINGLE WARD.

Telegram From Jones Congratulates the Democracy of Chicago on the Result, Adds That it Will Be Far Reaching in Its Importance and Reiterates His Statement That the Party of the People Really Won Last Fall.

Chicago, April 7.—The total vote for mayor is as follows:

Harrison (Dem.) 147,273
Harlan (Citizens) 68,263
Hearse (Rep.) 59,005
Sears (Ind.) 15,201

The four other candidates swell the total to 292,852; Harrison's plurality, 79,070; Harrison's majority, 4,864. Harrison ran over 10,000 ahead of his ticket.

The Republicans failed to carry a single ward in the city, the stronghold of the Republican machine, represented by Sheriff Pease, State Treasurer Hertz and Congressman Lorimer being swept by the Democrats. Charges of fraudulent practices in two wards were filed with the election commissioners today against judges and clerks of election.

A telegram was received from Senator Jones, chairman of the Democratic national committee, congratulating the Democracy on the result, adding that it would be far reaching in its importance and for the future of the party and declaring that Democracy really won last fall.

HE WANTS MONEY.

RYAN, OF SYRACUSE, NOT AT ALL MODEST.

If He Appears Before the Public He Proposes to Be Paid for It—Turf Topics Generally.

San Francisco, April 7.—The superintendent of the Olympic club, William J. Kennedy, received a dispatch from Tommy Ryan of Syracuse, N. Y., yesterday, which states that Ryan will not meet Green in this city unless the Olympic club will give a \$5,000 purse and allow \$500 for the expenses of the welter-weight to the coast. Ryan also stipulates that Siler must be the referee and that he be allowed \$1,000 as his expenses to and from the coast.

Kennedy answered the message and said in brief:

"Match off: you've got cold feet."

Leader Howard Taylor states that the club will secure first talent and a show will be given in the first week in May at the Pavilion.

At Newport.

Newport, Ky., April 7.—First race, six and a half furlongs—Flowery won, Robinson second, Dubois third. Time—1:21.

Second race, four furlongs—Lady Irene won, Lady of the West second, Easton third. Time—58.

Third race, four and a half furlongs—Van Antwerp won, Don Quixote second, Edward J. third. Time—59.

Fourth race, one mile—San Juan won, Kathleen second, Banque II third. Time—1:24.

Fifth race, one mile and 50 yards—Simon W. won, Dorothy III second, Hilda third. Time—1:45.

Notable Billiard Game.

Chicago, April 7.—The game in the billiard tournament this afternoon was notable for the short stop high run record being broken by Sutton, the Canadian, who scored 11 in the eighth inning. Two points more than the next highest. He won out against Gallagher by the score of 40 to 20.

Most of the big run was made by the left hand. Gallagher seems to have lost his stroke entirely, having won only one game, when much was expected of him. His high run today was 30. Sutton's average was 25.

CONGRESS TO AID THEM.

APPROPRIATION MADE FOR THE FLOOD SUFFERERS.

Senator Morgan Continues His Speech in Support of His Joint Resolution Extending Belligerent Rights to Both Sides in the Cuban Revolution.

Washington, April 7.—The message from the president suggesting government aid for the sufferers by the Mississippi floods was read in the senate and was followed by the introduction and passage of a joint resolution appropriating \$150,000 for this purpose. Before this action could be communicated to the house a joint resolution was received from the house appropriating \$200,000 for the same purpose and including the Red river of the north in the territory to which the resolution applied. The resolution was immediately passed by the senate, action on the other one and Mr. Morgan's resolution on Monday being reconsidered and annulled.

Senator Morgan (Dem. Ala.) continued his speech (begun yesterday) in support of his joint resolution extending belligerent rights to both sides in the Cuban revolution. No action was taken on it and at 2 p. m. the senate adjourned.

In the House.

Washington, April 7.—The house was in session an hour today, in which it passed a joint resolution appropriating \$200,000 for the relief of the flood sufferers in the Mississippi valley and enjoyed a little session sprung by Mr. Simpson (Pop. Kan.). The resolution was introduced by Mr. Catchings (Dem. Miss.), and agreed to unanimously.

Walker (Rep. Mass.), and Mr. Cannon (Rep. Ill.), criticized the action, however, the latter hoping that it was the last that would be necessary, "because of the state of the country," and the former into a position where they could constitutionally take care of their own people.

Mr. Walker gave notice that he would in future object to the passage of any similar resolution, believing it to be debasing in its effect upon the recipients. Mr. Simpson (Pop. Kan.) re-

lished the sensation of the day by following the example of Mr. Earle of South Carolina in the senate yesterday morning, and introducing a resolution to appoint a committee to proceed to the consideration of legislative business in the regular and ordinary way.

He spoke of the power exercised by the speaker as authority and described present conditions as revolution and anarchy. Speaker Reed responded at some length, stating that it was not the first time this kind of a resolution had been introduced. He said that the house at this time, he regretted that any member should have himself to the position of the chair. That was conferred by the house for its purpose and that only, and he said the present action of the house would welcome any action the house might see fit to take.

At 1:30 on Monday Mr. Dingley (Rep. Maine), the house adjourned until Saturday next.

WAS DELAYED ON

THE SUMMIT

Utah Central's Crew Has a Hard Battle.

WORST OF THE SEASON

SNOW TWELVE FEET DEEP IN SOME PLACES.

About Seventy-five Passengers Were Aboard the Train, and Had an Experience They May Not Meet With Again This Winter—Train Did Not Leave on the Return Until 7 p. m.

Park City, April 7.—The Utah Central train, due here at 10:30 a. m., did not arrive until 6 p. m., having been delayed at the summit by the worst snow blockade of the season. The snow had drifted heavily on both sides of the summit, and in some places was 12 feet deep.

About 75 passengers were on board. The train started on the return to Salt Lake at 7 p. m.

Among those who arrived were David Keith, Solon Spies, M. M. Cole, S. W. Westcott, Rev. W. S. Hunt, Mrs. E. P. Le Compte and Mrs. W. D. Sutton.

IOWA ALL RIGHT.

Trial Trip Made to the Satisfaction of All Concerned.

Boston, Mass., April 7.—Under favorable conditions and to the satisfaction of all concerned, the United States battleship Iowa was given her official trial today over the Cape Ann course, and under the inspection of the naval board appointed for the purpose. On the trial she made an average speed of 17 knots over the 56-mile course, exceeding her contract speed by one knot, and winning a bonus of \$200,000 for her builders. The figuring of 17 knots is a close one, and there is not much to be gained to allow for error, but since the tidal corrections are likely to be in the ship's favor, it is reasonably certain that the official figures will show 17 knots and a fraction.

The ship was driven at her highest speed, was very marked. In fact, the vibration could hardly be felt except at the extreme bow and stern. The trial showed in short that little is left to be desired either in design or construction, and the official board expressed it unofficially so. But the official report will be the same. The stations were 4.5 miles apart and the course was 23 miles northeast from the first station about five miles northeast of Thatcher's Island to the sixth station about a mile and a half from Bonnet Island buoy and return. The elapsed time for the first half was 1:57:23. Average speed, 16.873 knots. For the second half, 1:55:23; average speed, 17.47. Average speed for the entire distance, 17 knots. Elapsed time, 3:52:47.

The ship left her moorings in Boston harbor for the race course at 8:30 a. m. and returned to her anchorage of the lower light shortly after 4 o'clock p. m. To the newspaper men on board, Mr. Edwin S. Cramp expressed himself as perfectly satisfied with the showing made by the ship and with her behavior. He said the Iowa will sail early Thursday morning for Philadelphia.

This is a Spanish Story.

Madrid, April 7.—A dispatch received today from Manila, capital of the Philippine Islands, says that the Spanish troops have captured the town of San Francisco Malabang, where nearly all the insurgents who are continuing their resistance to the government have taken refuge. The rebels fought desperately to gain their positions but were finally routed with enormous losses. Large numbers of insurgents were injured and escaped into the interior in an utterly demoralized condition.

Wm. G. Fisher, of Denver, Dead.

New York, April 7.—William G. Fisher died this morning, due to locomotor ataxia. Mr. Fisher was the head of the firm of Daniels & Fisher of Denver.

When he returned to his hotel last evening he complained of being tired and retired early. At 2 o'clock this morning the bell rang and the porter answered. Mr. Fisher complained of being cold and wanted more blankets. While they were being wrapped around him he expired. The body was sent to Denver. Mr. Fisher was born in Saratoga in 1842.

GREAT DAMAGE
IN WASHINGTON

Warm Winds Rapidly Melt the Deep Snow.

CREEKS AND RIVERS RISE

GO OUT OF THEIR BANKS IN A FEW HOURS.

Trestle Several Blocks in Length Connects the Sprague Hotel With the Northern Pacific Depot—Farmers Lose Many Head of Cattle—Miles of Bridges and Fences Are Gone—Some Good May Come of It.

Sprague, Wash., April 7.—The southeastern portion of Lincoln county is suffering from the most disastrous floods known in years. Warm winds are melting the deep snow, covering the greater part of the Lincoln and Douglas county wheat fields, causing creeks and rivers to overflow their banks.

Business streets of this city are covered by from two to three feet of water, the cellars are all full, and in many cases families have moved to the second and third stories. A trestle several blocks long has been erected, connecting the Sprague hotel with the Northern Pacific depot. Several citizens have procured boats, and merchants in the flooded district have been compelled to move their stocks.

Farmers along Rock, Coal and Crab creeks have lost many head of cattle and large quantities of hay, which the high water, coming very suddenly, washed away. Many bridges and miles of fence are gone. Farmers will be benefited by having their land thoroughly moistened, and if it becomes dry enough to work this month, this year's wheat crop will be the greatest ever known in this section.

RAISED A ROW.

SECRETARY WILSON FINDS HIMSELF IN HOT WATER.

Reason For it is the Appointment of a Democrat as Special Agent in Charge of Scientific and Statistical Investigation.

New York, April 7.—A Washington dispatch to the World says:

Secretary of Agriculture Wilson has appointed Charles W. Dabney, Jr., of Tennessee (assistant secretary of agriculture under the Cleveland administration) to be "special agent in charge of scientific and statistical investigation." The salary is fixed at \$4,500 per year.

This is the largest compensation paid any official in the government designated either by the president or a cabinet officer, who is not confirmed by the senate, with the single exception of the director of the bureau of American republics.

Secretary Wilson's creation of an office and his bestowal upon a Democrat are bitterly denounced by those Republicans who are looking in vain for positions not blanketed by civil service regulations.

MYSTERIOUS DISAPPEARANCE

A Paper of Great Interest to Depositors of a Bank.

New York, April 7.—A Sun special from Altoona, Pa., says:

The stockholders of the suspended private bank of Gardner, Morrow & Co. of Hollidaysburg are excited over the disappearance of an agreement made many years ago, that the interest of any dead partner should remain in the bank after death. James Gardner was one of the principal owners of the bank. He died two years ago, leaving an estate of \$20,000. The bank failed six months ago, and, so far, the depositors have received nothing. If the old agreement is found they will share in the Gardner estate, if not, they will get only about 15 cents on the dollar.

The paper is known to have been in existence until a recent date. Last night the stockholders held a public meeting and today sent a committee to the assignee telling him that he must produce the agreement or they will take action in court to recover it. The bank depositors are mostly farmers.

MOUNTAIN MURDER.

Several Important Cases on in Williamson, W. Va., April 7.—For two days trials of mountain murder cases have been going on here, and thus far the prisoner has been convicted of a greater or less degree of murder in every case. About a dozen murder trials are now on the docket. The trial of Captain Hatfield will come up tomorrow. It has brought a score or more of his kinsmen to town and the people are looking for trouble.

NAVY YARD SCANDAL.

Commandant Dennis W. Mullan the Principal in the Case.

New York, April 7.—The Sun's Washington special says: Commander Dennis W. Mullan, commandant of the Pensacola navy yard, has been under investigation by a court of inquiry upon charges of a scandalous nature, which, if proved, will lead to his dismissal from the service. Captain Reamy and Lieutenant Lochmeier have just returned from Pensacola, where they spent several days investigating the case and taking testimony. Upon their report, it will depend whether Commander Mullan is to be court-martialed.

If he is tried, it is believed that he can hardly escape severe punishment. If the court believes the charges can be substantiated he may be asked to resign, so as to avoid a scandal in open court.

Secretary Long will take the case up for consideration this week. Commander Mullan some years ago received the thanks of the Maryland legislature for meritorious service on a cruise in the Pacific.

Widow Makes Serious Charges.

Pachuca, Mexico, April 7.—The widow

of Emfilio Ordonez, the newspaper editor and writer of this city, who is alleged to have been killed while serving a brief term in prison here for offenses against the state government, has filed a petition with the Mexican congress praying that ex-Governor Ramon F. Riveroll, now a member of congress from this state, be surrendered to the courts for trial for the death of her husband. She alleges that ex-Governor Riveroll, now a member of congress for political reasons.

CROOKED LEGISLATORS.

Strong Allegations Made Against Pennsylvanians.

New York, April 7.—A World special from Harrisburg, Pa., says:

A rumor is in circulation among the members of the state legislature that \$50,000 was demanded from the Metropolitan Life Insurance company of New York City to defeat the bill introduced by Senator McQuinn, which prohibits the insuring of children under 16 years of age. This information comes from one of the officers of the company.

The bill will come up for final passage in the senate today. The outcome of the matter may be an investigation by a legislative committee.

Out Alone Upon the Prairie, He Battles Bravely For His Life, But Death Finally Overtakes Him.

(Special to The Herald.)

Cheyenne, Wyo., April 7.—Edward Smith, a Converse county ranchman, died at Fort Fetterman yesterday from exposure to the blizzard of last week.

Smith was taking a load of baled hay from his ranch to the stage station when the blizzard came. He formed a barricade with the bales. The shelter proved insufficient, and when the storm ceased Smith was too weak to leave the place. He was found, after five days' time, by W. C. Irvine, who took him to Fetterman, where efforts were made to save his life, but without avail. Smith dying from the effects of the terrible exposure.

FAILED AT MIDNIGHT.

Proposed Electrocution at Columbus Postponed.

Columbus, O., April 7.—The electrocution apparatus which was to have been used for the first time at midnight tonight in executing the death penalty upon William Hays, failed at the last minute and Warden Coffin was obliged to request Governor Bush to respite the condemned man until the defect could be remedied. One of the armature coils burned out while the last tests were being made. To-night a temporary repair was made, but the machine would develop only 1,500 volts. It was to have been rated to 2,750 before the current was to be sent through the body of the murderer. The representative of the company making the dynamo was not willing that such risk should be taken, and at his suggestion Warden Coffin asked for and obtained a respite to April 21.

BRIEF TELEGRAMS.

Berlin, April 7.—Dr. von Stephen, secretary of the Imperial postoffice died today.

Pretoria, April 7.—President Kruger has ordered the formation of a special court to try Lieutenant Eloff his grandnephew, who was recently succeeded from duty for using language that was insulting to Queen Victoria.

Baltimore, Md., April 7.—The marriage today of Miss Ida Catherine Gary daughter of Postmaster-General and Mrs. James A. Gary to Francis E. Pogram was one of the notable events of the year in Baltimore's society circles.

Washington, April 7.—Colorado—Snow, followed by clearing weather; warmer in northern and southern portions Thursday evening; northerly winds.

Wyoming—Local snows followed by fair weather; light variable winds; warmer.

Montana—Generally fair weather; westerly winds.

Lansing, Mich., April 7.—Early this morning burglars cracked the safe in the agricultural college and got safely away with \$2,500.

St. Louis, April 7.—With the exception of four members of the house of delegates, the Republicans made a clean sweep in yesterday's municipal elections by majorities ranging from 2,000 to 40,000.

Watertown, N. Y., April 7.—Daniel Griffin, candidate for governor on the Gold Democratic ticket, last fall, died this morning.

Chicago, April 7.—The dead body of William H. Gage and that of his wife Maria, each 70 years old, were found in the trunk of a car which had been committed suicide, drinking laudanum.

Frankfort, Ky., April 7.—Silver and Gold Democrats and anti-Hunter Republicans refused to answer to their names at the roll call of a joint session, thus preventing a quorum.

SURVIVORS OF THE
BLACKHAWK WAR

Mr. King is Making an Effort in Their Behalf.

HIS BILL OF YESTERDAY

RELIEF FOR THOSE WHO SUFFERED FROM THE REDSKINS.

Bill to Provide For the Purchase of Sites and the Erection Thereof of Public Buildings at Salt Lake and Ogden, the Former to Cost Not Exceeding \$500,000, and the Latter Not Exceeding \$188,000.

(Special to The Herald.)

Washington, April 7.—The rugged veteran who braved the wilds of Utah in her early days, fought back the fierce Indians, who then roved her fertile valleys; prepared homes for and protected the lives of mother and child from the tomahawk of the treacherous redskins, will be much interested in a measure which was introduced today in the house of representatives by Mr. King.

Indeed, a large per cent of Utah's people have had some concern in it. The measure has for its purpose relief for the survivors of the Black Hawk war, and for all those who suffered from the depredations of the Indians since 1865. Also reimbursement for those who aided in suppressing the insurrections of the Indians, and whose property was destroyed by them. It provides that the court of claims' jurisdiction shall be extended so as to include those from the Indian fighters.

Another bill was introduced by Mr. King to provide for the purchase of sites and for the erection thereon of public buildings at Salt Lake and Ogden. The one at Salt Lake is to cost not exceeding \$500,000 and the one at Ogden not exceeding \$188,000.

BY CAVING BANKS.

GREAT DAMAGE ALONG THE LINE.

Stream is Falling, and the Removal of the Pressure Against Its Banks Increases the Trouble—Every Movement is Anxiously Watched.

Sioux City, Ia., April 7.—Thousands of dollars' worth of damage has already been done by caving banks on the Missouri a few miles above Sioux City. The cutting still continues. The stream is falling and the removal of pressure against the banks is increasing the trouble. In several cases the cutting has progressed so fast that occupants of houses near the banks have had to row escape. Ice from the Yellowstone is due soon. It is gorging above and may make similar trouble here.

CHRISTIANS AND TURKS.

Fight of a Serious Nature Reported Outside of Candia.

Candia, April 7.—Fighting of a somewhat serious nature occurred today between the Christians and Turks outside of Candia. The insurgents, who are likely to be relieved, attacked the Turks, attacked the outposts of the latter from four points at once. The Turks made a strong fight and succeeded in holding their positions. The loss was only two killed, while the loss of the insurgents was 11 killed.

The insurgents at Kissamos have sent a letter to the foreign admirals asking the daily aid and that there is much suffering among the Christians, who are now practically the only residents outside the coast towns.

The blockade is maintained with severity, but despite this the fact Greek sailors manage occasionally to run in a cargo of ammunition and food supplies. Of course no sufficient supply from this source can be received, unless the powers speedily come to some arrangement and the blockade be raised the suffering will become acute.

Even Turks Are Disgusted.

Candia, April 7.—With the exception of a fight outside of Candia, in which the Christians were repulsed with a heavier loss than they inflicted on the Moslems, there has been little or no prospect of impulse being overcome by the powers and even the Turks are becoming disgusted with the situation. Reports from the interior show that the scarcity of provisions is becoming greater daily and that there is much suffering among the Christians, who are now practically the only residents outside the coast towns.

The blockade is maintained with severity, but despite this the fact Greek sailors manage occasionally to run in a cargo of ammunition and food supplies. Of course no sufficient supply from this source can be received, unless the powers speedily come to some arrangement and the blockade be raised the suffering will become acute.

"Hooray For McKinley."

Cincinnati, April 7.—Charles F. Stiles, doing business as Styles & Co., manufacturers of iron measures and packages for paint, assigned with \$80,000 assets and \$45,000 liabilities.

Bureau of American Republics.

Washington, April 7.—The bureau of American republics is to enter upon an aggressive effort to improve the commercial relations of the countries on this continent. This morning Secretary Sherman and the Venezuelan, Mexican, Brazilian and Argentine ministers, constituting the executive board of the bureau, held a protracted conference at which the new director, Joseph P. Smith, was present, and the policy of vigorously carrying out the original objects of the bureau was adopted. The staff will be increased and the scope of the work will be promptly broadened.

The Ships.

New York, April 7.—Arrived: Steamers Amsterdam from Rotterdam; Mobile from London.

Sailed: Steamer Majestic for Liverpool; Nordland for Antwerp.

Arrived out: Steamer Island at Copenhagen.

Sighted: Steamer New York for New York from Southampton, passed the Lizard.

JAMES FITZNER—ALLEGED DYNAMITER.

room window of Mrs. Sarah A. Pine in Depot avenue, yesterday morning, the residents in the neighborhood of the Rio Grande Western station escaped an awful death, for the child's discovery was a dynamite bomb loaded with enough explosives to lay waste the dwellings in the vicinity of the railroad yards for five blocks in either direction. James Fitzner, who is accused of undertaking the explosion of
